

LED HITCH STEP

Instructions:

- Hitch Step may need to be removed for tight turns, off-road use, or if trailer arm has any attachments below the coupling.
- Not compatible with weight distribution hitches.
- Vehicles with trailer detection technology may incorrectly detect a trailer is connected (see fitting instructions for more information).
- Hitch Step lights will only illuminate in reverse where the trailer socket has been pre-wired.
- When towing, unplug the Hitch Step and ensure the trailer wiring is connected to the tow vehicle.
