

يُنصح هذا الجهاز بوقفه في الحالات التالية:

يُنصح بالسلامة.

يجب عدم تغيير مكونات الأداة أو المشكّلات الأخرى.

عند عدم عمل وظيفة تخصيص.

تاتك من استخدام إسلاك مخصص للتشغيل أو إسلاك آخر ذات

نقطة بقعة 5 مم (فقاً لمعيار 10 AWG أو أكثر للوحة

الأسلاك والوصلات).

لتجنب حوت دائر قصر، لا ضغط أو تردد ملطفاً أي أجسام معدنية.

أو عصارات أو أدوات معدنية داخل الجهاز.

إذاً بدل الجهاز بصدر رخاء أو روابط عربة، فما ينفع فوراً.

وستشترى وكيل KENWOOD.

لا تنس جرحه أثاث الاستخدام، نظرًا لأن سطحه يمكن ساخته وقد

يسكب بحروف في حالة نفس.

لتجنب تلف الجهاز، اتبع الاحتياطات التالية:

تاتك من توسيع مقدار طاقة بار متر بجهد 12 فولت.

يمضي ذلك أصلًا بغير مقدار طاقة بار.

لا تفتح المقصورة أبدًا إلى حدود أخرى ذات صلة.

في حالة سوء موت قبضي وتشخيص من الساعات أثاث تتفاقم

الحرارة، قد يتسبب في تلف المقصورة ضوضاء، خلي (احتياطي) في كل طرف

حقائب ثني.

لا تحمل المصالك الأرضية بجهد معين من هذه السياقة مثلاً طرقاً

أو تفاصيل المقصورة التي تحيط به، حتى تتصدى المقصورة أو حارة

الوصلات.

لا تفتح المصالك الأرضية بجهد ما يزيد عن مقدار طاقة بار متر بجهد 12 فولت.

متاح من تركيب مصهر وقائي في سلك الطاقة بجوار المقصورة، ويجب

أن تكون سعة المصهر الفقاقي ما تأثيره سعة المصهر الجبار أو

أكبر قليلاً.

بالنسبة إلى سلك الطاقة والطرف الأرضي، استخدم سلك طاقة

بنظام بقعة 5 مم (فقاً لمعيار 10 AWG أو أكثر).

عند استخدام أكبر مقدار صوت، استخدم سلك إمداد طاقة

ومنصهر، وفقط بسعة ملائمة تأثير الإجمالي

الأقصى المسموح من كل مكثف صوت.

بالنسبة إلى سلك الطاقة والطرف الأرضي، استخدم سلك مجموعة

الأسلاك وأولاً.

إذاً وجده شكلات آثار التكبير، فاستشر وكيل KENWOOD.

إذاً لا تجده أن الجهاز لا يعمل جيداً، فاستشر وكيل KENWOOD.

في حالة اتساع اللوحة الآمنية، اوقف تشغيل الطاقة وامسح اللوحة

باستخدام ماسحة سيليكون أو قطة قماش ناعم جافة.

لا تنسحيف قطعة قماش خشنة أو ميلة بذيليات متطربة مثل

ممسحة اللوحة و/or تنشير حرف المؤثر.

في حالة استخدام الجهاز على القصص ACC ON (تشغيل المطاردة بـ ACC دون

قطع المحرك، سوف يؤدي ذلك إلى استهلاك طاقة المطاردة بسرعه.

فاستخدم بعد تشغيل المحرك.

■ Protection function
The protection function is activated in the following situations:
This unit is equipped with a protection function for protecting your unit and your speakers from various accidents or problems that can occur.
When the protection function is triggered, the power indicator goes off and the amplifier stops operating.
• When a speaker wire may be short-circuited.
• When a speaker output contacts ground.
• To prevent a short circuit, please do not leave any metallic objects (such as coins or metal tools) inside the unit.
• If the unit starts to emit smoke or strange smells, turn off the power immediately and consult your KENWOOD dealer.
• Do not touch the unit during use because the surface of the unit becomes hot and may cause burns if touched.

■ Wiring
Take the battery wire for this unit directly from the battery. If it's connected to the vehicle's wiring harness, it can cause blown fuses etc.

If a buzzing noise is heard from the speakers when the engine is running, connect a line noise filter (optional) to each of the battery wire.

Do not allow the wire to directly contact the edge of the iron plate by using Grommets.

Connect the ground wire to a metal part of the car chassis that acts as an electrical ground passing electricity to the battery's negative \ominus terminal. Do not turn the power on if the ground wire is not connected.

Be sure to install a protective fuse in the power cord near the battery. The protective fuse should be the same capacity as the unit's fuse capacity or somewhat larger.

For the power cord and ground, use a vehicle type (fireproof) power wiring cord. (Use a power wiring cord with the range of 5 mm² (AWG 10) or more)

When more than one power amplifier are going to be used, use a power supply wiring wire and protective fuse of greater current-handling capacity than the total maximum current drawn by each amplifier.

■ Note

If you experience problems during installation, consult your KENWOOD dealer.

If the unit does not seem to be working right, consult your KENWOOD dealer.

Cleaning the unit

If the front panel gets dirty, turn off the power and wipe the panel with a dry silicon cloth or soft cloth.

■ CAUTION

Do not wipe the panel with a hard cloth or a cloth dampened by volatile solvents such as paint thinner and alcohol. They can scratch the surface of the panel and/or cause the indicator letters to peel off.

To prevent battery rise

When the unit is used in the ACC ON position without turning the engine ON, it depletes the battery. Use it after starting the engine.

■ Speaker selection

Using speakers with smaller input ratings than the amplifier's output power would result in smoke generation or equipment failure.

The impedance of the speakers that are going to be connected should be 2Ω or greater (for stereo connections), or 4Ω or greater (for bridged connections). When more than one set of speakers are going to be used, calculate the combined impedance of the speakers and then connect suitable speakers to the amplifier.

<Example>

Combined impedance

Safety precautions

WARNING

To prevent injury or fire, take the following precautions:

- Mounting and wiring this product requires skills and experience. For safety's sake, leave the mounting and wiring work to professionals.
- When extending the ignition, battery, or ground wires, make sure to use automotive-grade wires or other wires with the range of 5 mm² (AWG 10) or more to prevent wire deterioration and damage to the wire coating.
- When a speaker wire may be short-circuited.
- When a speaker output contacts ground.
- To prevent a short circuit, please勿 leave any metallic objects (such as coins or metal tools) inside the unit.
- If the unit starts to emit smoke or strange smells, turn off the power immediately and consult your KENWOOD dealer.
- Do not touch the unit during use because the surface of the unit becomes hot and may cause burns if touched.

CAUTION

To prevent damage to the machine, take the following precautions:

- The unit is connected to a 12V DC power supply with a negative ground connection.
- Do not open the top or bottom covers of the unit.
- Do not install the unit in a spot exposed to direct sunlight or excessive heat or humidity. Also avoid places with too much dust or the possibility of water splashing.
- When replacing a fuse, only use a new one with the prescribed rating. Using a fuse with the wrong rating may cause your unit to malfunction.
- To prevent a short circuit when replacing a fuse, first disconnect the wiring harness.

NOTE

- If you experience problems during installation, consult your KENWOOD dealer.
- If the unit does not seem to be working right, consult your KENWOOD dealer.

Cleaning the unit

If the front panel gets dirty, turn off the power and wipe the panel with a dry silicon cloth or soft cloth.

CAUTION

Do not wipe the panel with a hard cloth or a cloth dampened by volatile solvents such as paint thinner and alcohol. They can scratch the surface of the panel and/or cause the indicator letters to peel off.

To prevent battery rise

When the unit is used in the ACC ON position without turning the engine ON, it depletes the battery. Use it after starting the engine.

CAUTION

Do not install the unit in the below locations: (Unstable location, In a location that interferes with driving, In a place that gets hot, In a place that gets direct sunlight, In a location that gets hit by air) Do not install the unit under the carpet. Otherwise heat build-up occurs and the unit may be damaged.

Install this unit in a location which allows heat to easily dissipate. Once installed, do not place any object on top of the unit.

Install the unit in a location where the temperature of the amplifier will become hot during use. Install the amplifier in a place where people, resins, and other substances that are sensitive to heat will not come into contact with it.

When making a hole under a seat, inside the trunk, or somewhere else in the vehicle, check that there is nothing hazardous on the opposite side such as a gasoline tank, brake pipe, or wiring harness, and be careful not to cause scratches or other damage.

Do not install near the dashboard, rear tray, or air bag safety parts.

The installation to the vehicle should securely fasten the unit to a place in which it will not obstruct driving. If the unit comes off due to a shock and hits a person or safety part, it may cause injury or an accident.

After installing the unit, check to make sure that electrical equipment such as the brake lamps, turn signal lamps and windshield wipers operate normally.

Mounting the device on the body of the vehicle, such as the dashboard, rear tray, or air bag safety parts, is not recommended.

安全注意事项

警告

为了防止受伤和火灾，请遵守下列注意事项。

- 安装产品和连接线需要一定的技能和经验。为了保证安全，应请专业人员和安装连接线。
- 当延长蓄电池导线或接地导线时，请使用汽车用导线或5mm² (AWG 10)以上的导线，以防导线劣化和被路面的损伤。
- 为了防止短路事故，请勿将金属物品（硬币、工具等）掉落在装置中。
- 当扬声器输出端子短路时。
- 当扬声器的输出接地时。
- 万一装置冒烟或有异味时，请立即关闭电源，并与建伍经销商洽谈。
- 在使用中请尽量不要接触装置表面。因为装置在使用中表面会发热会烫伤人体。

注意

为了防止装置发生故障，请遵守下列注意事项，正确操作和使用。

- 请以接地线的12V 直流电源向本装置供电。
- 请勿打开放顶和底盖的瓶子。
- 请勿将本装置安装在曝露于直射阳光、高温或潮湿的地方。
- 更换保险丝时，请更换规定容量相同的保险丝，如使用不同容量的保险丝，可能会造成装置的故障。
- 更换保险丝时，为了防止短路事故，请先拔下电源线再进行更换。
- 务必在装有保险丝附近的电源连接线上设置保险丝。保险丝的规格应与本机的保险丝容量相同或者略大。
- 对于电源连接线和接地线时，请使用汽车用（防火）电源连接线。（请使用截面为5mm² (AWG 10) 或以上的电源连接线。）
- 当本机出现误动作时，有 DC (直流) 信号传送到扬声器输出端子。
- 内部高温不能动作时。

注

- 安装有困难时，请与建伍经销商洽谈。
- 如果仍不能恢复正常时，请与建伍经销商洽谈。

装置的保养

如果外表脏污时，请关闭电源，使用干燥的硅布或柔软的布擦拭。

注意

请勿使用研磨剂或涂料稀释剂，酒精等挥发性溶剂，以免损坏外表面或将所附指示字符擦掉。
